**PULSUS** brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Singapore is all set for an amazing event as **PULSUS** proudly presents the “**World Congress on Plant Science and Molecular Biology** slated on **September 12-13, 2018** at **Singapore**.

**PULSUS** cordially welcome researchers, academicians, students and business professionals in the field of Molecular Biology from around the world to participate in the upcoming Plant Science 2018. The meeting for this year will revolve around the theme “**Evolution of Plants and Heights of Development in Molecular Biology**” thus relaying the most cutting edge findings in the field of Plant Science. The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Organizing Committee

#### **Conference Highlights**

- Phytology of Plants
- Phytotomy of Plants
- Chemical Reaction in Plants
- Micropropagation Method in Plants
- Herbal Medicine
- Viability of Plants
- Phytotoxins
- Pathogenecity in Plants
- Plant Pesticides
- Principle of Molecular Biology
- Technology Used in Molecular Biology
- Sequencing Techniques
- Molecular Biology of Neurodegenerative Diseases
- Molecular Biology Role in Cancer Treatment
- Molecular Biology Applications
- Biochemistry of Nucleic Acids
- Biochemistry of Proteins and Amino Acids

Invitation

**Pulsus** Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

**PULSUS** conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, **Pulsus** Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancement de la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.

**Pulsus** Conferences explore the future by connecting minds and spreading brilliance at **Pulsus** Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. **Pulsus** group is closely associated with globally renowned academic and research societies.

**Pulsus** Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives.

**Pulsus** Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

About PULSUS

In our day to day life plants plays a major role, either directly or indirectly. It is essential to understand how plants operate, in order to grow disease free and nutritious crop without using inorganic fertilizers. Plant Science 2018 will illuminate your knowledge in the field of Experimental Plant Biology that includes genomics, proteomics, biochemistry, physiology, cell biology, genetics, functional plant breeding, systems biology and the interaction of plants with the environment. This also incorporate the advanced techniques emerging in the field of Molecular Biology ,which is known for the study of structure, composition, interaction and function of biology at molecular level. The field overlaps with other areas of biology and chemistry, particularly Genetics and Biochemistry for Novel Therapies. This conference will provide a unique platform for prominent Scientists, Professors, Young Researchers, Medical and Industrial Professionals to share the Knowledge and Scientific advancements in the ground of Plant Science and Molecular Biology.

### Target Audience

- Molecular Biologists
- Bio-technologists
- Biochemists
- Industry Professionals
- Diagnostic laboratory professionals
- Researchers
- Doctors
- Clinical Fellows
- Academicians
- Academic scientists
- Scientists
- Professors
- Health-care Students

### Who should attend?

- Undergraduate & Postgraduate students
- Postdoctoral Fellows and Trainees
- Business Professionals
- Pharmacologists
- Directors / Managers / CEO
- Delegates/ Scholars/ Students
- Physicians / Lab Technicians
- Marketing, Advertising and Promotion Agency Executives

### Why to attend?

- To Pursue New Trends and Techniques emerged in the field
- To Discourse and gain more Knowledge about the field
- To Furnish your Knowledge by Presenting Papers
- This provides a Platform for Networking with Peers
- Mixture of Health care units and Academia Delegates / To reveal the current Challenges
- Networking

Singapore, the globe's priciest place to live is the world's only island capital city which is formally known as the Republic of Singapore, and commonly known by its tag name Little Red Dot and The Lion City. The City State is located in Southeast Asia around 85 miles north of the Equator and south of Peninsular Malaysia. The Community statistics shows of about 5.7 million people living within 278 square miles (720 square kilometers). Singapore is well known for its cleanliness and excellent infrastructure through liberal taxation. The National Parks Board is achieving their lofty goal of turning Singapore into a "city in a garden". The main Pillar for this Nation's Economy includes Manufacturing Industries, Service Industry and Banking Systems. Singapore is ranked 2nd among 43 countries in the Asia-Pacific Region, and its Overall Score is above the Regional and World averages.
