Philadelphia is the sixth most populous city in the United States and it is the economic and cultural anchor of the Delaware valley. It is situated in the fall line that separates the Atlantic coastal line from the piedmont. The city space was dominated by Georgian architecture, including Independence Hall and Christ Church. Philadelphia played an instrumental role in American revolution as a meeting place for the founding fathers of the United States. The Philadelphia area's many colleges and universities make it a top study destination as the city has evolved into an educational and economic hub. This city is the center of economic activity in Pennsylvania and is home to five Fortune 1000 companies. Philadelphia has more outdoor sculptures and murals than any other American cities.
