About Dubai

Dubai, the 7th most visited city of the world according to 2013 report is an emirate in the United Arab Emirates known for luxury shopping, ultramodern architecture and a lively nightlife scene. From the popular food to the traditional Arabic- Islamic culture, the people here are most welcoming. The influence of Islamic and Arab culture on its architecture, music, attire, cuisine and lifestyle are very prominent as well. Burj Khalifa, the mega tall skyscraper dominates the skyline. At its foot lies Dubai Fountain with its jets and lights choreographed to music. On artificial islands just offshore is Atlantis, The Palm, a resort with water and marine-animal parks. Dubai is a growing knowledge hub that includes a significant number of universities and research centres committed to paving the way for technological and scientific advancements. Dubai is a city in the United Arab Emirates, located within the emirate. The emirate of Dubai is located on the southeast coast of the Persian Gulf and is one of the seven emirates that make up the country. It has the largest population in the UAE (2,106,177) and the second-largest land territory by area (4,114 km²) after Abu Dhabi. It is one of the few cities in the world that has undergone such a rapid transformation - from a humble beginning as a pearl diving centre - to one of the fastest growing cities on Earth.
