Cosmetics Congress 2019

Speakers Representation from 50+ Countries

15 Keynote Talks | 75 Plenary Speakers | 15 Interactive sessions

Symposia | Workshops | Best Poster Award

200 Attendees | 50 Professors | and many more . . .

Greetings!

Welcome to most exciting and fascinating London, UK!

Within this splendid setting, we plan to deliver a conference that will exceed your expectations.

During this year's Conference, we hope that you will seize the opportunity to rekindle ongoing connections and spark new ones with your colleagues from around the globe. It's with great pleasure and great honor to invite you to the **"International conference on Plastic and Cosmetic Surgery"** scheduled during **March 11th - 12th 2019 at London, UK.**

The Conference will be organized around the theme ***"Pioneering Techniques to Enhance Research in Plastic and Cosmetic Surgery"***

Cosmetics Congress 2019 anticipates more than 500 participants around the globe to experience thought provoking Keynote lectures, Oral & Poster presentations. This year conference will offer ample opportunities for all stakeholders working on Reconstructive Surgery, Head and Neck Surgery, Laser Surgery, Craniofacial Surgery, Facial Rejuvenation, Rheumatoid Hand Surgery, Skin Rejuvenation, Burn Repair Surgery, Breast Surgery, Body Contouring, Skin Rejuvenation, Face Contouring Surgery to expose their research work.

Our conference aims to gather the Researchers, principal investigators, experts, Plastic Surgeons and researchers working on brain from both academia and health care industry, Business Delegates, Scientists and students across the globe to provide an international forum for the dissemination of original research results, new ideas and practical development experiences.

This year's Conference program, coupled with the Business Opportunity Exchange, is an event you can't afford to miss!.

Sincerely

Zita Mary

Program Manager | Cosmetics 2019

Organizing Committee

We are back again! Conference that dedicated to Innovate Solution to the Public Health Challenges, one conference which future the shape of Plastic and Cosmetic Surgery. Our Conference will organize and allow to access the global researchers around the world in a single platform. Cosmetics 2019 will provide a great opportunity beyond any comparison to attend and network with Plastic and Cosmetics Surgery Community.

Join us at our 2019 edition of Plastic and Cosmetic Surgery to Experience the Global Ambiance with the Researchers who work with similar significance of research. Cosmetics 2019 will help you to get answers to all your queries related to your research work and also it creates an great opportunity to make new associations and also helps to foster potential partnerships. Cosmetics 2019 will be an great platform for you to create long lasting relationship with the fellow researchers from Neurology Community.

Get worldwide acknowledgment to your research profile where more than 55000 Visitors who analyzed our conference website to attend and submit proposals of their research work. Where this was recorded as the highest number of Visitors from both, developed and developing nations. While we penetrate the study of visitor, navigation, and traffic patterns to determine the success of our conference website majority amount of traffic we receive from cities like New York, London, Valencia, Amsterdam, Madrid, Barcelona, Athens, Sydney, Paris, Frankfurt, Tokyo, Osaka, Melbourne, Moscow and Vienna.

Cosmetics congress 2019 website is attracting 56000+ Plastic Surgeons, Cosmetic Surgeon, and Surgeons, maxillo-facial surgeons, Researchers, Otolaryngologists, Research scientists, Craniofacial surgeon Organizations and societies, Pharmaceutical companies, Aesthetic medicine and regenerative medicine drug Industries, Burn repair associations, Professors and Students..

This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Cosmetics Congress 2019 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Purpose

With members from around the world focused on learning about Disseminating cutting edge skills in the field of cosmetics Surgery, this is your single best opportunity to reach the largest assemblage of participants from the scientific community.

Conduct demonstrations, distribute information, meet with eminent personalities, and make a splash with latest research innovations at this outstanding event.

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration.
- The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about plastic and cosmetic surgery to present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address current research going areas including Reconstructive Surgery, Head and Neck Surgery, Laser Surgery, Craniofacial Surgery, Facial Rejuvenation, Rheumatoid Hand Surgery, Skin Rejuvenation, Burn Repair Surgery, Breast Surgery, Body Contouring, Skin Rejuvenation, Face Contouring Surgery and overcome barriers that limit access to care and services.

Objectives

- After participating in this meeting, attendees should be able to
- Discuss emerging issues in Plastic and Cosmetic Surgery
- Discuss and apply recent research findings related to Cosmetic & Plastic Surgery
- Disseminate the diverse voices of breakthrough innovators with visionary and practical solutions.

Who should attend?

Otolaryngologists, Rhinologists, Neurotologists, Gastroenterology researchers, Pharmacists, Research scientists, Otolaryngology Organizations and societies, Business delegates, CEO's and R&D Heads from Industries, Directors, Industrial Leaders, Pharmaceutical companies, Plastic and cosmetics drug Industries, Cosmetics associations & foundations, Professors and Students from Academia in the study of Plastic and Cosmetic Surgery and researchers who utilize novel techniques and knowledge in diagnosing and treating Facial and Congenital Disorders.

Cosmetics 2019 Outlook

Explore the best in Cutting edge Research

Change to learn beyond your field of Interest

Keynote sessions by worlds most eminent and distinguished researchers

Conference Participation Inspires, Rejuvenate and Energize participants

Cosmetics 2019 an unique platform to increase your reputation within the Surgery Sector

Learning and Knowledge in a single package

Speaker's representation from 50+ Countries

Cosmetics 2019 address the important topics and informative approaches of Plastic and cosmetics Surgery. This is going to be the most beneficial medical conference in which the entire medical team of Plastic Surgery is included.

The main intention of the conference is to deal with the unique methods of Plastic and Cosmetic Surgery and its innovative strategies.

plastic surgery is a surgical specialty involving the restoration, reconstruction, or alteration of the human body. It can be divided into two categories. The first is reconstructive surgery which includes craniofacial surgery, hand surgery, microsurgery, and the treatment of burns. The other is cosmetic or aesthetic surgery. While reconstructive surgery aims to reconstruct a part of the body or improve its functioning, cosmetic surgery aims at improving the appearance of it. Both of these techniques are used throughout the world.

Reconstructive plastic surgery is performed to correct functional impairments caused by burns; traumatic injuries, such as facial bone fractures and breaks; congenital abnormalities, such as cleft palates or cleft lips; developmental abnormalities; infection and disease; and cancer or tumors. Reconstructive plastic surgery is usually performed to improve function, but it may be done to approximate a normal appearance.

The most common reconstructive procedures are tumor removal, laceration repair, scar repair, hand surgery, and breast reduction plasty. According to the American Society of Plastic Surgeons, the number of reconstructive breast reductions for women increased in 2007 by 2 percent from the year before. Breast reduction in men also increased in 2007 by 7 percent. In 2012, there were 68,416 performed.

Plastic surgery is increasing slowly, rising 115% from 2000 to 2015. "According to the annual plastic surgery procedural statistics, there were 15.9 million surgical and minimally-invasive cosmetic procedures performed in the United States in 2015, a 2 percent increase over 2014.

Plastic surgery is a broad field, and may be subdivided further. In the United States, plastic surgeons are board certified by American Board of Plastic Surgery. Subdisciplines of plastic surgery may include:

Aesthetic surgery, Burn surgery, Craniofacial surgery, Hand surgery, Microsurgery and Pediatric plastic surgery.

In plastic surgery, the transfer of skin tissue(Skin grafting) is a very common procedure. Skin grafts can be derived from the recipient or donors:

Usually, good results would be expected from plastic surgery that emphasize careful planning of incisions so that they fall within the line of natural skin folds or lines, appropriate choice of wound closure, use of best available suture materials, and early removal of exposed sutures so that the wound is held closed by buried sutures.

The most popular surgeries are Botox, liposuction, eyelid surgery, breast implants, nose jobs, and facelifts.

LONDON is the capital and most populous city of England and the United Kingdom., London is a 21st-century city with history stretching back to Roman times. At its centre stand the imposing Houses of Parliament, the iconic 'Big Ben' clock tower and Westminster Abbey, site of British monarch coronations.

Standing on the River Thames in the south east of the island of Great Britain, London has been a major settlement for two millennia. London is often regarded as a world cultural capital. It is the world's largest financial centre.

London is a leading global city in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transportation. London has a diverse range of people and cultures, and more than 300 languages are spoken in the region.

London's buildings are too diverse to be characterized by any particular architectural style, partly because of their varying ages. Many grand houses and public buildings, such as the Natural gallery, are constructed from Portland Stone. Some areas of the city, particularly those just west of the centre, are characterized by white stucco or whitewashed buildings.

London is a diverse and exciting city with some of the world's best sights, attractions and activities. London is home to some of the best museums and galleries in the world. The capital is home to beautiful Royal Parks, including Hyde Park and Richmond Park. The Thames provides a stunning backdrop to many of the city's top tourist attractions. River bus services and river tours are great ways to beat the traffic and enjoy wonderful views. London's famous skyline continues to evolve. There are plenty of places to view the iconic skyline along the river such as View from The Shard or the London Eye. The London Eye observation wheel provides panoramic views of the South Bank cultural complex, and the entire city.

London Climate:

London, the capital and largest city in England and the United Kingdom has a temperate oceanic climate, with warm summers and cool winters. While the city annually has modest precipitation, there are long periods of overcast skies and frequent light mist-type precipitation, which may account for the rainy image of the city.

London - City of Dreams:

London is a dream city for anyone with a romantic streak or an interest in history. Sightseeing opportunities are to be found in abundance. It's one of the most sought after destinations for tourists and travellers all over the world. All throughout London, every street and every lane is constructed thoughtfully to reflect on its years of tradition. There are so many lavish places of interests for people of all ages to visit in London.

Currency: Euros (€)

Transport within London:

Train: London has an extensive and developed transport network which includes both private and public services. Public transport services are dominated by the executive agency for transport in London: Transport for London (TfL). TfL controls the majority of public transport, including the Underground, Buses, Tramlink, the Docklands Light Railway, London River Services and the London Overground. Transport for London operates three different railway systems across London.

The largest is the London Underground, a rapid transit system operating on sub-surface lines and in deep-level "tube" lines. TfL also operates the Docklands Light Railway (DLR), an automated light rail system in the east of the city, and the Tramlink system.

Bus: The London Bus network is extensive, with over 6,800 scheduled services every weekday carrying about six million passengers on over 700 different routes making it one of the most extensive bus systems in the world and by far the largest in Europe. Catering mainly for local journeys, it carries more passengers than the Underground. In addition to this extensive daytime system, a 100-route night bus service is also operated, providing a 24-hour service. East London Transit is a partially segregated Bus Rapid Transit system.

Cycling: Over one million Londoners own bicycles but as of 2008 only around 2 per cent of all journeys in London are made by bike: this compares poorly to other major European cities such as Berlin (5 per cent), Munich (12 per cent), and Amsterdam (55 per cent)[39] and Copenhagen (36 per cent).[40] Nevertheless, this is an 83 per cent increase compared to that in 2000.[41] There are currently an estimated 480,000 cycle journeys each day in the capital.

National and International air connections:

London is the best served city by airports in the world with almost 150 million passengers using its six airports in 2005. In order of size, these airports are Heathrow, Gatwick, Stansted, Luton, London City; and London Southend Airport.

Heathrow and Gatwick serve long-haul, European and domestic flights, Southend is used mostly for European flights, Stansted and Luton handle low-cost European and domestic services, whilst London City caters for business passengers to short-haul and domestic destinations.

The closest airport to the city centre is London City in the Docklands area, approximately 10 km east of the City of London financial district. A branch of the Docklands Light Railway links the airport to the City in under 25 minutes.

Accompany Partners' Policy:

We respectfully remind you that partners accompanying delegates/speakers are not eligible to attend conference sessions and do not qualify for refreshments and lunches during the day unless they have registered.

Any partner wishing to attend events not previously selected and paid for in his or her registration may do so at the Conference Registration desk.

We would be pleased to accommodate any requests where possible.

Registration and Accommodation

Policy:

Registration and accommodation changes will not be accepted unless made in writing.

Changes made within 14 days of the event may incur costs due to specific hotel and venue policies

Cancellation Policy:

Registration cancellations will not be accepted unless made in writing.

Cancellations request made before 10 December 2018 will be refunded less 25% of the Conference Registration fee, to cover administration costs.

No registration refunds will be processed after this date, however, substitute delegates are welcome.
