Advanced Structural Biology 2018

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Rome is all set for an amazing event as **PULSUS** proudly presents the “World Congress on Advanced Structural and Molecular Biology” slated on August 22-23, 2018 at Rome, Italy.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Structural and Molecular Biology from around the world to participate in the upcoming Advanced Structural Biology 2018. The meeting for this year will revolve around the theme “Congregated Technologies for Structural & Molecular Biology” thus relaying the most cutting edge findings in the field of Structural and Molecular Biology researches. The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Conference Highlights

- Structural and Molecular Biology
- Synthetic Biology
- Biochemistry
- Molecular Mechanics
- Molecular Physics
- Genetic Informatics
- Molecular Basis of Disease
- Drug Design, Biomarkers
- Genome Replication and Translation
- Bio-chemical Processes
- Structural Virology
- Molecular Biology Methods and Techniques
- Structural Biology Techniques
- Applications of Structural Molecular Biology
- Scientific Techniques
- Nuclear Magnetic Resonance Spectroscopy & Mass Spectrometry
- Crystallography
- Chromatographic Techniques
- Clinical Application
- The Latest Trends in Structural and Molecular Biology

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, **Pulsus** Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancement de la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at **Pulsus** Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. **Pulsus** group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives.

Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

About PULSUS

World Congress on Advanced Structural and Molecular Biology 2018 highlights the theme “Congregated Technologies for Structural and Molecular Biology” is designed as an excellent platform for Research scholars, students, new researchers, scholars, Director of Laboratories, Research and Diagnostic Laboratory Professionals, molecular and structural biologists, medical entrepreneurs to bring out their novel ideas, latest innovations and concerns in the field of Structural and Molecular Biology. The two day conference will have keynote presentation, oral presentation, scientific sessions, workshops, exhibitions, poster presentations, and papers regarding all the streams in Structural and Molecular Biology. World Congress on Advanced Structural and Molecular Biology 2018 is the best chance for students, tutors, deans, directors or laboratories, researchers and biologists to demonstrate their latest ideas and innovations and to exchange their ideology and researches on Structural and Molecular Biology.

Target Audience

- Structural Biologist
- Biochemists
- Director of Laboratories
- Research and Diagnostic Laboratory Professionals
- Clinical Fellows
- Research faculty
- Academic Professionals
- Academic Scientists
- Students
- Universities
- Industrial Professionals
- Business Entrepreneurs
- Directors/Managers/CEO's
- Brand Manufacturers/ Marketers of Consumer Products
- Marketing, Advertising and Promotion Agency Executives

- Health care Associations and Societies
- Business Entrepreneurs
- Directors of Laboratories
- Industry Professionals
- Colleges of Structural and Molecular Biology
- Structural and Molecular Biology related Machine, tool developing companies
- Software developing companies

Why to attend?

- 10+ Keynote Speaker Session
- 50+ speaker faculty over 2 full days sharing Advanced Structural and Molecular Biology
- 5+ Workshops
- 13 Interactive sessions
- Mixture of Health care units and Academia Delegates
- Networking

Who should attend?

- Structural and Molecular Biology Students, Scientists and professors
- Structural and Molecular Biology Researchers

Rome is the capital of Italy. The city is located at the Tiber River in the west central part of the country, about 23 km east off the coast of the Mediterranean Sea, which is the western portion of the Italian Peninsula. Rome also serves as the capital of the Lazio region. Rome is with 2,876,051 residents in 1,285km² (496.1 sq mi), it is also the country's most populated community. It is the fourth most populated city in the European Union by population within city limits. It is the oldest continuously occupied place in Europe. Rome became the one of the major centers of the Italian Renaissance, and then the birthplace of both Baroque style and Neoclassicism. Famous artists, painters, sculptors and architects made Rome the center of their activity creating masterpiece throughout the city.
